Switzerland becomes full member of CESSDA ERIC, strengthening research collaboration in Europe

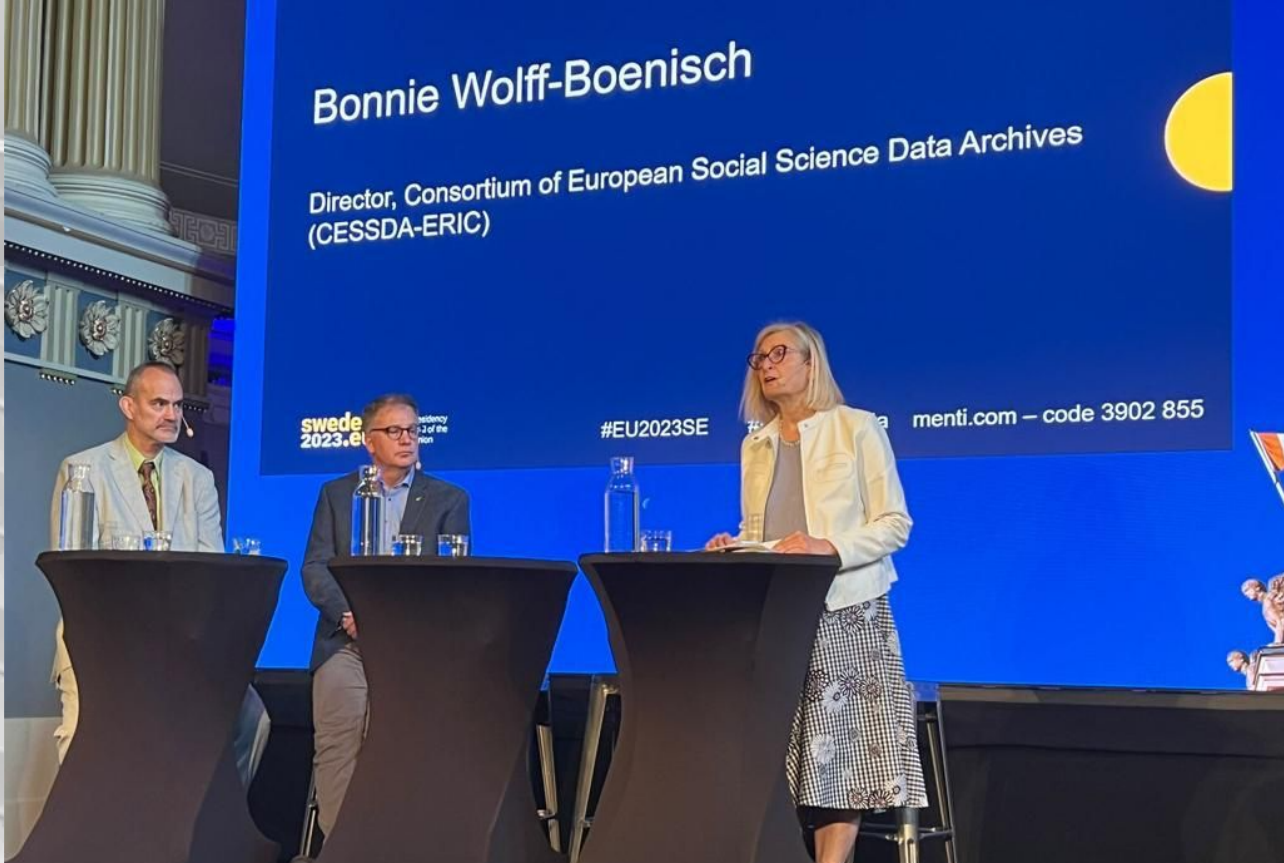

Switzerland has been granted full membership in the Consortium of European Social Science Data Archives (CESSDA ERIC), as unanimously approved by the CESSDA General Assembly on 8 June 2023.

CESSDA recognised for its contributions to Open Science best practices

CESSDA has been recognised in the new Horizon Europe Programme Guide and the Open Research Europe publishing platform for its contribution to Open Science practices.

CESSDA in the European landscape

21 June 2023

CESSDA at the Swedish Presidency Conference

The image shows Director of CESSDA Dr Bonnie Wolff-Boenisch (right) with Gustav Kalbe from DG Connect (European Commission) and Joe Miller from GBIF (Global Biodiversity Information Facility).

CESSDA ERIC Director Bonnie Wolff-Boenisch addressed attendees at a conference which took place in Lund, Sweden from 19 to 21 June, organised by the Swedish Presidency of the Council of the European Union.

The conference was titled "Potential of Research Data: How Research Infrastructures Provide New Opportunities and Benefits for Society", with Dr Wolff invited to speak on the effects of digitisation on research and wider society. One of the most important messages she shared in her speech was: "Data that cannot be found by scientists, citizens or decision makers hampers the sharing of knowledge, best practices, innovation and hence the data needs to be FAIR and research infrastructures need long-term funding." This resonates with the just published declaration of the [Lund Declaration on Maximising the Benefits of Research Data](#).
