Building a Pan-European Research Data Infrastructure

"...Consortium of European Social Science Data Archives (CESSDA) will build on existing national services within the member countries and strengthen and expand pan-European cooperation through close cooperation in the field of research and development in social science data archives for both scientific and economic reasons"

Limitations

» Low level of maturity / non-existence of service providers in some countries
» Lack of support for CESSDA ERIC membership in some countries
Solution: CESSDA strengthening and widening activities

**Strategic Goal:** “CESSDA ERIC will provide services with European coverage and performance measures, achieve a wider membership, work to reduce access barriers, and build archive capacity across Europe”

- Support to development of capacities across Europe
- Widening membership
- European coverage based on external collaboration
Strategic objective since beginning of CESSDA

“Article I: Objectives

1. To promote the acquisition, archiving and distribution of data throughout Europe.
2. To promote projects and procedures for enhancing exchange of data and technologies among data organizations.
3. To stimulate the development and the use of these procedures throughout Europe.
4. To encourage new data organizations to further these objectives.
5. To promote the integration of the European database.
6. To associate and cooperate with other international organizations sharing similar objectives.

» 5 partners (ČSDA, FORS, TARKI, ADP, SND)

» CESSDA Widening Workshop 2019
  » 1.5 day event with 40-60 participants; located in a perspective non-member country

» CESSDA Helpdesk
  » an online information and email service, where aspiring CESSDA service providers might get advice and feedback regarding development of their data services and plans for joining CESSDA;
  » a mentorship programme between widening project partners and actively aspiring archives;
Overview of plans and realised activities

Ideas on widening activities collected during development of the CESSDA Work Plan on Collaboration in March 2014 (expert group: CSDA, FSD, Réseau Quetelet, FORS)

» Establishing expert Workgroup
  » Performed by the CESSDA management

» Developing CESSDA’s strategy of widening and pan-European coverage
  » Strategic goals integrated into CESSDA strategy documents
  » *Conceptual basis was not set up - ongoing projects combine different views*

» Incorporating SERSCIDA recommendations and policies
  » Current projects follow up SERSCIDA and SEEDS
  » Direct links provided by FORS and ADP

» Establishing a network of partner archives
  » CESSDA Network of Partners established under CESSDA SaW
  » *No formal agreements on partnership*
